ABOUT WBSWAN

West Bengal State Wide Area Network (WBSWAN) is the triple play backbone network for data, voice and video communication throughout the state of West Bengal. Over this network Intranet, Internet and various e-Governance activities of the Government of West Bengal are being carried out.

WBSWAN network provides Data, Voice & Video Communication facilities from State Head Quarters at Kolkata up to all District (DHQ), Sub Division (SDHQ) and Block Headquarters (BHQ) over dedicated leased circuits / MPLS circuits from BSNL. The District Head Quarters are connected to the State Head Quarters in Writers' Building as well as Webel Bhavan, Salt Lake over dual fiber optic links (in fail-over mode), ensuring a smooth operation in case of failure of one SHQ due to some major problem / natural disaster, etc. However P2P links are now being migrated to MPLS network of BSNL throughout West Bengal to have better performance and reliability.

Project Objective

As decided by Project Director, WBADMIP, Govt. of West Bengal, 34 Mbps WBSWAN connectivity at the head office (SPMU) along with VC system and 2 Mbps WBSWAN connectivity shall be extended to 18 districts DPMU offices.

Proposed Solution

The bidder is also required to integrate seamlessly the proposed central VC system (MCU, Recording & Streaming server, meeting server etc) with the existing end points (Make : Life size , Model : ICON 400) available at the district offices.

All network related configurations, maintaining existing WAN protocols, topology integration with existing WBSWAN backbone for successful installation and commissioning of setting up the WBSWAN connectivity for the aforementioned locations will be carried out by the L1 bidder. Bidder to handover all required passwords / username, documentation (feruling, I/O box marking with consecutive switch ports etc) after successful implementation of the project to WBSWAN team. Physical checking for getting internet service, ping test, VC test and other necessary checking including assigning IP addressing scheme for the existing desktop computer will be the scope of L1 bidder. Also L1 bidder should submit necessary connectivity diagram of LAN cabling work for trouble shooting in future after successful implementation of the project.
