## **SECTION – A**

### **SCOPE OF WORK**

#### **Present Scenario**

West Bengal Police Directorate is situated in Bhabani Bhaban, Alipore. It is the head quarter of the West Bengal Police. West Bengal Police Directorate is in the preparatory stage of implementing e-office solution for the purpose of establishing paperless office at Police Head quarter and subsequently in SP offices in the districts. Also in this regard a high speed data connectivity is required in order to communicate with the e office server installed in State Data Center (SDC) through WBSWAN Backbone.

#### **Project Objective**

The main objective of this project is to provide WAN connectivity having bandwidth of 50 Mbps leased line connectivity between West Bengal Police Directorate – Bhabani Bhaban and WBSWAN SHQ (State Head Quarter) at Webel Bhaban complex.

Also the project includes local area network connectivity to connect approximately 300 LAN points at Police Head Quarter and also 30 or more Access Points to provide wireless connectivity for accessing e office & internet traffic. The LAN points will be distributed throughout the building.

#### **Proposed Solution**

For implementation of e-office, West Bengal Police Directorate at Bhabani Bhaban Local Area Network (LAN) connectivity with 300 LAN points are required in the building. A high speed 50 Mbps bandwidth through BSNL leased Line is required between WBSWAN SHQ (State Head Quarter) & West Bengal Police Directorate for concurrent access to e office server at SDC by 300 users approx.

In the proposed solution, a 50 Mbps bandwidth between WBSWAN SHQ & District Police Head Quarter, a Router & a switch integration is required for successful implementation of WBSWAN connectivity.

In the building we propose to connect the LAN points & Access Points from network switch with CAT-6 cable distributed throughout the building.

The scope of work definition and responsibilities stated in this document are indicative. However bidder should include any additional products or services required to achieve the functional objective of the project. The purchaser reserves the right to make changes to stated implementation activity or accept bidder's recommendations for the same during implementation keeping within domain of the stated project objectives.

Successful bidder should confirm the actual length of the connectivity material i.e CAT-6 cable before procurement of the materials. Final ordering quantity/supply will be done based on the final survey report of the L1 bidder. Supply to the end customer to be made along with WTL challans. As per the survey, the quantity of the passive materials may get revised. The length of CAT-6 cable for LAN connectivity is based on our estimated cable length. The final invoicing will be based on the ACTUAL CABLE LENGTH USED. Also 10% quantity variation in material (Access Point) may be allowed during actual implementation of the work with prior approval.

Bidder has to undertake necessary LAN cabling as per industry standard practices for installing, implementing & commissioning of LAN connectivity under existing WBSWAN backbone.

Bidder should include the required components for cabling & connectors as required for successful laying of CAT-6 including patch panels, patch cords, RJ-45 casings / PVC conduit etc as per best practices.

Bidder should propose all requisite materials for successful implementation of LAN connectivity at District Police Head quarter at Bhabani Bhaban. Proper casing should be used for laying of CAT-6 cable in the building premises.

For providing wireless connectivity at Police Head Quarter, an access controller shall have to be provided (as per the technical spec). The number of Access points to be deployed in the building is approximately 30. However, the actual number of access points may increase as per the actual requirement/ traffic load during implementation.

For indoor surface UTP cable laying & termination, PVC Casing Capping/ PVC pipe of suitable size shall be deployed. Flexible metallic pipe (GI) shall be used for wall/floor embedding and for crossing the existing

# WEBEL TECHNOLOGY LIMITED

wiring. PVC Casing / PVC pipe shall be medium duty type. The cable shall be dressed and terminated in accordance with the recommendations made in the relevant TIA/EIA standard document, manufacturer's recommendation and/or best industry practices. Bend radius of the cable in the termination area shall not be less than 4 times the outside diameter of the cable. Cable jacket shall be maintained as close as possible to the termination point. Cable shall be neatly bundled and dressed to their respective panels or blocks. Each panel or block shall be fed by an individual bundle separated and dressed back to the point of cable entrance into the rack. Each cable shall be clearly labelled on the cable jacket behind the patch panel at a location that can be viewed clearly without removing the bundle support ties. Cables shall be installed in continuous length from origin to destination and the length shall generally not exceed 80 meters. An axial spacing of 150mm (minimum) shall be maintained between power and network cable. Cables shall not be attached to lighting support wires. A self-adhesive label or PVC marker ferule shall be used to identify cables and similar label/marker shall be used at both ends of the cable.

Please note that installation and commissioning of solution with 3 years onsite comprehensive warranty for router, switch, AP, Controller, UPS as mentioned in the BOM will be provided by the L1 bidder. Failing which the respective manufacturer must be responsible for warranty support and software upgrades (IOS etc if applicable) of their products for at least 5 years. For LAN connectivity all necessary cables, connectors will be supplied by the L1 bidder for successful LAN connectivity and will be maintained for 3 years duration.

The power to the 9U Rack will be fed from the 1 KVA line interactive UPS systems. The power to the 12U Rack will be fed from the 1 KVA online UPS systems. The power plugs / points for each UPS system shall be done by the concern authority at the respective position. It's the L1 bidder's responsibility to identify & mark the position of rack so that the authority can arrange the necessary power point at the time of initial survey. The SI/bidder should get these survey reports and paper sketches documented with signature and submitted to WTL as well as end user department.

Bill of material mentioned in the RFP is the minimum requisite for LAN & WAN work in West Bengal Police Directorate at Bhabani Bhavan.

**WBSWAN Integration:** Supply, install & integrate with WBSWAN is the scope of L1 bidder. Please note that L1 bidder should rearrange the existing network with the proposed network as instructed by WBSWAN team (implementing agency) time to time throughout at the time of installation. No further communication regarding cost involvement will be entertained for implementation of the services. Execution of the project and necessary configuration of network switch & router are to be done in all respect & tested by the vendor as per the direction of end customer (West Bengal Police Directorate (GoWB) / WBSWAN team time to time during installation/warranty period. Setting up the IP address at the Desktop computer / networking equipment/ WiFi AP is in the scope of successive bidder. For this you may contact with core team of WBSWAN SHQ (State Head Quarter).

**Acceptance:** After successful installation & Commissioning, installation report prepared by WTL (Webel Technology Limited), signed and sealed by appropriate authority of Directorate to be submitted. Also after successful completion of the work L1 bidder needs to provide a details Schematic Diagram of the network with proper documentation.

On-site comprehensive maintenance of all hardware devices included in the Bill of Material during the warranty period (as mentioned in subsequent sections) from the date of successful installation and acceptance of the system of all hardware devices included in Bill of Material. The Active Networking items (all switches, router and the wireless components) shall be of same make and the OEM should belong to the leaders' quadrant in Gartner's magic quadrant for Wired and Wireless LAN infrastructure.

Bidder has to Supply & install & configure all the active, passive & licenses (if any), specified in the Bill of Material & should follow the Terms & conditions of work.

**Bidder is advised to visit the location before placing the final order. If required any item which is not included in the BOM and provide any additional materials, services, etc. required to deliver to meet the project objectives. No further communication regarding cost involvement will be entertained at the time of implementation of the project.**
