

WEBEL TECHNOLOGY LIMITED

NOTICE INVITING e-TENDER

Online Tender documents are invited for Implementation of Centralized Control System and Governance for various bottling plants under the Department of Excise Government of West Bengal from reputed System Integrators having sufficient experience and credentials for successful completion of Centralized Control system in a Government Department/PSU/Autonomous Body or any reputed organization.

1.	Tender No. & Date	WTL/ED/CCS/21-22/029 dated 20.12.2021
2.	Tender Version No.	1.0
3.	Brief description of Job	Implementation of Centralized Control System and Governance for various bottling plants under the Directorate of Excise, GoWB.
4.	Tender Fee	Rs.6000.00 (Rupees Six thousand only). The amount to be transferred online through e-tender portal.
5.	Earnest Money Deposit	Rs. 600000.00 (Rupees Six lakh only). The amount to be transferred online through e-tender portal.
6.	Date of Downloading	20.12.2021
7.	Pre-Bid Meeting date & time	28.12.2021 at 11.30 Hrs. (On-Line Meeting) <ul style="list-style-type: none">• Pre-Bid meeting will be organizing online platform only. Only queries as per format (Section - L) reaching WTL by 27.12.2021 at 15.00 Hrs. will be taken for decision. Interest bidders are requested to send mail to purchase@wtl.co.in for participation of online pre-bid meeting. Based on request WTL will share meeting id / links for meeting. If there is any change in date and time then will inform.• Only queries as per format (Section - O) reaching WTL by 27.12.2021 at 15.00 Hrs. will be taken for decision.• Queries will be sent to Manager (Purchase) (purchase@wtl.co.in).
8.	Bid Submission Start date & time	06.01.2022 at 14.00 Hrs.
9.	Last date & time of EMD & Tender Fee submission	Before Uploading of Tender
10.	Last date & time of Bid Submission	11.01.2022 at 12.00 Hrs.
11.	Date & time of Technical Bid Opening	13.01.2022 at 12.00 Hrs.
12.	WTL Address	WEBEL TECHNOLOGY LIMITED (A Govt. of West Bengal Undertaking) Plot - 5, Block – BP, Sector – V, Salt Lake City, Kolkata – 700091.
13.	WTL Contact Number	033-23673403-06

WEBEL TECHNOLOGY LIMITED

1. Intending bidder may download the tender documents from the website <https://wbtenders.gov.in> directly with the help of Digital Signature Certificate. Necessary Tender fee may be remitted online through e-tender portal in favour of “Webel Technology Limited” and also to be documented through e-filing. Necessary Earnest Money Deposit (EMD) may be remitted online through e-tender portal in favour of “Webel Technology Limited” and also to be documented through e-filing.
2. Both Techno Commercial Bid and Financial Bid are to be submitted concurrently duly digitally signed in the website <https://wbtenders.gov.in>
3. Tender documents may be downloaded from website and submission of Techno Commercial Bid and Financial Bid will be done as per Time Schedule stated in Section – E of this Tender Document.
4. The Financial Bid of the prospective Bidder will be considered only if the Techno Commercial Bid of the bidder is found qualified by the Tender Committee. The decision of the ‘Tender Committee’ will be final and absolute in this respect. The list of Qualified Bidders will be displayed in the website.
5. All clarifications / corrigenda will be published only on the <https://wbtenders.gov.in>.

WEBEL TECHNOLOGY LIMITED

CONTENTS OF THE TENDER DOCUMENT

The Tender document comprises of the following:

SECTION – A	INTRODUCTION & OBJECTIVE OF THE PROJECT
SECTION – B	LOCATION WISE EXISTING SETUP & TECHNICAL DETAILS
SECTION – C	SCOPE OF WORK & RESPONSIBILITY
SECTION – D	SCOPE OF SERVICES – OPERATION & MAINTENANCE PHASE
SECTION – E	DATE AND TIME SCHEDULE
SECTION – F	INSTRUCTION TO BIDDER
SECTION – G	ELIGIBILITY CRITERIA
SECTION – H	BID FORM
SECTION – I	TECHNO COMMERCIAL EVALUATION & AWARDING OF CONTRACT
SECTION – J	GUIDANCE FOR E-TENDERING
SECTION - K	BILL OF MATERIAL
SECTION – L	DETAILS OF ORDERS EXECUTED BY BIDDER
SECTION – M	FINANCIAL CAPABILITY OF BIDDER
SECTION – N	BIDDER’S DETAILS
SECTION – O	FORMAT FOR PRE-BID MEETING QUERY
SECTION – P	LIST OF CLIENTS OF SIMILAR ORDERS
SECTION – Q	PROFORMA FOR PERFORMANCE BANK GUARANTEE
SECTION – R	SERVICE LEVEL AGREEMENT (SLA)
SECTION – S	NIT DECLARATION FOR BIDDER

WEBEL TECHNOLOGY LIMITED

SECTION – A

INTRODUCTION & OBJECTIVE OF THE PROJECT

1.1. INTRODUCTION

West Bengal state Excise has been constantly delivering endeavours to bring transparency and control over accounting of spirit. In doing so West Bengal State Excise has been pioneer in the country in adopting technology for the same. Using Automation process all the Distilleries, Bottling Plants were equipped with Mass Flow meter and Radar based Level Transmitter for custody transfer accounting of spirit. The plants have been equipped with PLC based Automation to control the quality of Production at a prescribed standard. The control & reporting are designed and framed in the domain of SCADA/HMI system

Further to impose a Central Governance Department has decided to introduce a Central Monitoring system putting all the sites data under one umbrella. The purpose of the Monitoring system is to Monitor and control the business critical data across all the bottling plants, Distilleries & Breweries from a Single Dashboard equipped with necessary storage and sophisticated Display system. The Central Monitoring system required to be integrated with Audio Visual facility to interact with the Local DEC for any operational requirement.

A Central Control System is intended to be created for better supervision with high performance of the Plants/Manufactories/Breweries/Distilleries from Central control working station. Presently under West Bengal Excise control (there are total 52 numbers of plants) there are 37 numbers of Country Spirit Bottling Plants, 9 numbers of Foreign Liquor Manufactories, 3 numbers of Breweries and there are 3 numbers of Distilleries. The Data from the local plants shall be transmitted to the central control system workstation shall replicate the live streaming of operation going on in the units from the central SCADA system and work station smoothly data transfer directly from the PLC/SCADA to the Central Control System.

The purpose of this project is for procurement, installation, commissioning and maintenance of a single and centralized platform Monitoring, Control, Reporting; Analysis system for real-time and historical data generated at all the manufactories.

1.2. OBJECTIVE OF THE PROJECT

The Excise Directorate, Government of West Bengal, is planning to impose a central governance Department has decided to introduce a Central Monitoring system putting all the sites data under one umbrella. The purpose of the Monitoring system is to Monitor and control the business critical data across all the bottling plants, Distilleries & Breweries from a Single Dashboard equipped with necessary storage and sophisticated Display system

The proposed solution would have the following features:

- Integration of the entire live plant SCADA screen in the Central Control System Display according to the desired format provided by the Directorate.
- Accumulation of live data in a centralized database for analytic and MIS Generations
- Real time on line monitoring and exact replica diagram of the plant with the process and the instrumentation view
- The reports generated at Plants should be integrated with Central Server /Storage and will be referred as primary source for data reconciliation and MIS Generations
- End to End Pipe line view from Distillation to warehouse.
- Security hardening at Plant level
- In case of any anomaly alarms and alerts shall pop up in central control system
- In Case of any deliberate disturbance created in the plant like switching off the PLC or disconnection of power source or Ethernet cable or any unwanted bypass of the system the same should be triggered alarm/notification to CCS and can determine the cause.

WEBEL TECHNOLOGY LIMITED

SECTION – B

EXISTING SETUP & TECHNICAL DETAILS FOR CENTRALIZED CONTROL SYSTEM

The manufactories are equipped with at least one PLC to which various instrumentation devices / sensors and controllable devices are connected over various protocols and signals.

The PLC monitors and controls one or more production lines including but not limited to measuring level stored in each Spirit Storage Tank, each Blending Tanks, opening and closing of respective solenoid valve, starting and stopping of the respective Transfer pumps connected to each bottling line's Buffer Tank for transferring blended product from the Blending Tank, measurement of mass flow using the mass flow meter for product transfer to Buffer Tank from Blending Tank.

IMPORTANT COMPONENTS & PARAMETERS:

- a variable, fixed displacement bi-directional gear pump,
- a linear actuator
- a cross over relief valve,
- Storage & Blending Tanks
- Radar Level Transmitter
- Mass Flow Meter
- Electric motor

IMPORTANT MEASUREMENT PARAMETERS:

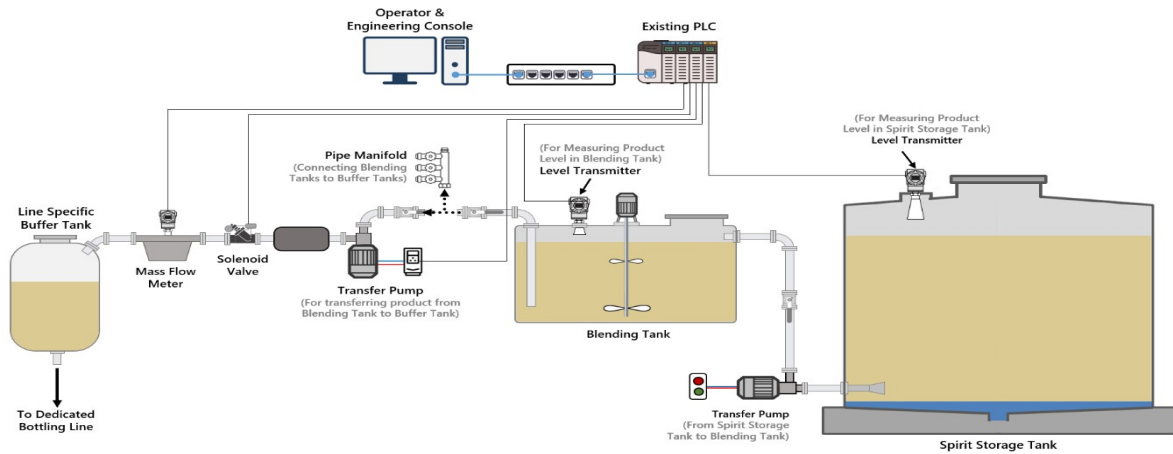

- Mass
- Volume
- Density
- Temperature
- Strength
- Level

TYPES OF PLC/SCADA USE:

- Siemens
- ABB
- Ge-Fanuc

WEBEL TECHNOLOGY LIMITED

BASIC WORKING PRINCIPLE WITH DIAGRAM

IN THE CONTEXT OF BOTTLING LINES PRESENT WITHIN THE MANUFACTORY, SOME OF THE PARAMETERS (AMONGST OTHERS) THAT ARE MONITORED AND CAPTURED BY THE PLC ARE MENTIONED BELOW:

- Manufactory ID / Name
- Line Number
- Blending Tank number from which the Buffer Tank is fed.
- Storage Tank Number from which the Blending Tank was filled.
- Brand ID / Name
- Product ID
- Batch ID / Number
- Batch Start Date & Time
- Batch End Date & Time
- Admissible Concentration / Strength
- Average Concentration / Strength
- Admissible Density
- Total Mass Transferred from Blending Tank to Buffer Tank.
- Total Volume Transferred from Blending Tank to Buffer Tank.
- Average Density of the product transferred from Blending Tank to Buffer Tank.
- Average Temperature of the product transferred from Blending Tank to Buffer Tank.
- Number of bottles produced based on bottling volume (in a line for the defined batch).
- Total spirit wastage in kg.
- Total spirit wastage in volume.

THE PLC CAPTURES THE FOLLOWING INFORMATION FROM EACH MASS FLOW METER LINKED TO EACH OF THE BOTTLING LINE'S BUFFER TANK WHICH IS FED FROM THE BLENDING TANK, AT PRE-DEFINED INTERVAL OF TIME (E.G.: 5 SECONDS)

- Date & Time Stamp at which the PLC records data from the mass flow meter.
- Instantaneous temperature of the liquid flowing through the mass flow meter at the given point of the stamped date & time.

WEBEL TECHNOLOGY LIMITED

- Instantaneous density of the liquid flowing through the mass flow meter at the given point of the stamped date & time.
- Totalized mass of the liquid that has flown through the mass flow meter till the given point of the stamped date & time.
- Totalized volume of the liquid that has flown through the mass flow meter till the given point of the stamped date & time.

THE PLC ALSO CAPTURES PRODUCT LEVEL INFORMATION FROM THE LEVEL TRANSMITTERS INSTALLED ON EACH OF THE SPIRIT STORAGE TANKS AND THE BLENDING TANKS IN THE MANUFACTORY. THE FOLLOWING SET OF INFORMATION IS COLLECTED.

- Manufactory ID / Name.
- Date & Time Stamp at which the bottling process/production at the manufactory started.
- Date & Time Stamp at which the bottling process/production at the manufactory stopped.
- Instantaneous reading of the level of the product at each of the Tanks (Spirit Storage Tanks and the Blending Tanks).
- Calculated Volume from the product in the respective tanks based on the calibration chart of the specific tank.
- The PLC additionally controls decantation related flow using transfer pump and solenoid valve from the Tanker Truck to the Spirit Storage Tank. The PLC also collects decantation related flow information from the Tanker Truck to the Spirit Storage Tank using a mass flow meter (as shown below in the diagram) at a pre-defined interval of time (e.g.: 5 seconds)

Total List of IMFL and Country spirit bottling plants installed programmable logic controller (PLC)

Country spirit & IMFL manufactory

Sl. No	District	Name of the Plant & address	Category	Name of the service provider	Make and model of PLC

SECTION – C

SCOPE OF WORK & RESPONSIBILITY

Introduction

The Directorate of Excise GoWB has Using Automation process for all the Distilleries, Bottling Plants were equipped with Mass Flow meter and Radar based Level Transmitter for custody transfer accounting of spirit. The plants have been equipped with PLC based Automation to control the quality of Production at a prescribed standard. The control & reporting are designed and framed in the domain of SCADA/HMI systems

e-Tender are invited for a comprehensive solution to integrate all the Bottling Plants/Distilleries. HMI SCADA Data under Central Control System without changing the current formats of the operation.

- The Primary scope of this project is to design and implement the Central Control System. The CCS will accumulate all the SCADA data of all Distilleries, Breweries and Manufactories.
- The CCS has to have professional Display to accommodate The Live data of the SCADA of all the Distilleries, Breweries and Manufactories.
- The CCS will have Database to store the historic data for MIS and analytics
- The connectivity between Site location and CCS will be provided by the department preferably via wireless communication Module (GPRS).
- In between the CCS and the Site location SCADA a universal modified system need to be installed which can communicate with different PLC and SCADA system present across the Manufactories, Breweries and Distilleries.
- The modified system should be equipped to store SCADA data in case of a connectivity interruption with the CCS and will again transfer the data to CCS once
 - The CCS will be embedded with a utility so all roll up reconciliation, analytics can be done on daily granularity with visibility on weekly, monthly, annual data MIS Total spirit produced in the Distilleries
 - Spirit imported by Plants
 - Plant wise bulk spirit stock
 - Issue of different kind of spirit from Distilleries
 - Plant wise production volume (Brands and pack size wise
 - Inventory of finished stock in bonded warehouse
 - Analytical view on locality based and seasonal impact on sale of liquor
 - Potential leakage, Revenue pipeline analytics, etc.
- The CCS should be equipped with an audio visual interactive facility to interact with local representative at Manufactories.
- The CCS should generate alarm In case of any anomaly and alerts shall pop up in central control system. The CCS should be able to drill down to the site SCADA and can provide exception approval to continue plant operation
- Comprehensive support for required Hardware and software for CCS and plant side modified system.

WEBEL TECHNOLOGY LIMITED

Sample basic Plant level networked data processor and transmitter system node with dual redundant CPU and GSM/GPRS/3G/4G based wireless error notification facility.

1. Key features

- The system should be of dual CPU redundant type.
- Each CPU should be able to fetch approximately 50 double word data attributes from the main PLC of the plant through MODBUS TCP protocol.
- The controller should send a fetched data packet with a time stamp to the central server through Internet connectivity / Secure VPN Network.
- Built-in GSM/GPRS/3G/4G wireless transceiver.
- The controller should be placed securely in a sealed panel with a locking facility.
- The system should have internal battery backup for working under power failure conditions.
- Separate internal/external SSD memory module memory for backup data storage during internet link failure. Sufficient storage space should be available for keeping for at least 3 days data backup. Data will be stored with real time clock stamping. Backup data will be sent to the Server automatically when the communication is restored.

Minimum Technical Specification

- The system should be Linux based dual CPU redundant in nature with common GSM/GPRS/3G/4G wireless transceivers.
- Broadcom BCM2711 quad-core Cortex-A72 (ARM v8) 64-bit SoC @ 1.5GHz or better
- H.264 (up to 1080p60 decode, 1080p30 encode)
- OpenGL ES 3.1, Vulkan 1.0
- Minimum 4GB LPDDR4-3200 SDRAM
- Minimum 32GB eMMC Flash memory
- Option for fully certified radio module: 2.4 GHz, 5.0 GHz IEEE 802.11 b/g/n/ac wireless;
- Bluetooth 5.0, BLE;
- External 12V PSU
- 2 × Full-size HDMI 2.0 connectors
- Gigabit Ethernet RJ45 with POE support
- 2 × USB 2 Socket, with header for two more sockets
- Micro USB socket for program update
- Micro SD Card socket
- PCIe Gen 2 socket
- Standard Fan connector
- External power connector (+5V, +12V)
- 2 × MIPI DSI display FPC connectors (22pin 0.5mm pitch cable)
- 2 × MIPI CSI-2 camera FPC connectors (22pin 0.5mm pitch cable)
- RTC with Battery backup
- Min 7" Touch Screen Display for displaying status of each CPU
- Supports addressing of MODBUS devices through MODBUS TCP
- GSM/GPRS/2G/3G connectivity for error notifications.
- Redundant Power Supply:
 - 230V 50Hz. AC mains
 - 12V, 26AH SMF Battery backup
 - Built-in battery charger
 - Auto battery backup mode switch in case of mains failure
- Encryption facility for data transfer.
- Local Data Backup Up to 3 Days. Separate internal/external SSD memory module memory should be used for backup data storage during internet link failure. Sufficient storage space should be

WEBEL TECHNOLOGY LIMITED

available for keeping for at least 3 days data backup. Data will be stored with real time clock stamping. Backup data will be sent to the Server automatically when the communication is restored.

- Each logger should be configured for its own ID.
- Emergency alarm data /SMS should be sent to the server/mobile through GSM/ GPRS/ 2G/ 3G:
 - For any type of failure of communication (internet or server)
 - Tampering of panel
 - Power failure
 - Low battery
 - Non availability of SCADA
 - Non availability of any of the CPUs
- Entire system should be housed in a well secured sealed panel.
- Local Sim will be provided by the bottling plants / distilleries

2. Sample Basic Server side software for (i) processing data from plants, (ii) providing necessary interfaces for 'Zonal process monitoring & control stations' & (iii) 'Distributed Process View Stations'

i. Processing data from plants

Key features

- It should be a Redundant Application/Web Server including Database Server.
- Data should be transfer through a secure method.
- There should not be any data loss or tampering of data in time of transfer of data from Plant Node to dedicated Server.
- Parameter should be processed as per the requirement.

Minimum Technical Specification

- Dedicated Server should be redundant in nature.
- The Central Web Database Server Software should be developed on PHP & SQL.
- All the Plant Node should send the data through web socket method to a static IP server.
- The database server should be configured to accommodate all data received from Wired / Remote Wireless Data from the Plant from different locations with local time stamp with its parameters as per requirements.
- The web server space, database space and associated domain should be allocated distinctly for the purpose. The services may be extended for availing continuous service.
- The configuration, programming and uploading of the database server application for validating and storing all data received from each Plant Node will be within the scope of the supply for the warranty period.
- All data should be stored in the database. The data storage frequency 5 seconds or less.
- In case of main internet communication failure at the Plant Node side, the server should save log of all system parameters of the node and generate SMS alarm notifications to a set of programmable mobile numbers.

ii. Software for Zonal process monitoring & control stations

Key features

- The Zonal process monitoring Station should have the monitoring system to monitor the entire Plant processes.
- The data should be real time data with graphical interface for displaying the data of each node.
- There should be an authentication facility to monitor the Plant processes.

WEBEL TECHNOLOGY LIMITED

- The Zonal process control Station should have the control system to control the Plant processes.
- Remotely Node Control System should be there.
- The Control system should be in an encrypted form to keep the entire control secure.
- Parameter should be transfer in a secure method for the control of the Plant Process.

Specification

- A Website or an IP should be there for Zonal process monitoring & control stations to monitor the real time data.
- The database server should be configured to accommodate all data received from Wired / Remote Wireless Data Acquisition units located at different locations with local time stamp with its parameters as per requirements.
- Real time graphical interface for displaying the data of each node.
- User Id & Password for login facility will be given.
- Tabular & Graphical report will be there.
- There will be provision of selecting locations and period as well as product for filtered display of data.
- Provision for viewing and downloading of detailed reports.
- Remotely Node Control System should be there.
- A separate Admin Login will be there for the node creation or controls.
- Secondary Login will be there for the Control System of Plant Process.
- The Zonal process control station should have a Website or an IP to control the Plant process.
- Real time control of Plant Processes.
- Remotely Node Control System should be there.
- Secondary Login will be there for the Control System of Plant Process.
- The server should be able to generate SMS alert for notification of different types of critical errors of each node.
- Any disoperation should be registered through SMS from server.
- Provision for Data Analytics.
- SSL Support should be there.

3. Centralized Control System View Station

WTL will establish a Centralized Control System setup at Excise HQ with all necessary equipments for smooth viewing of Applications and Data as per tender features.

WTL will implement connectivity through secure VPN/SDWAN boxes (with redundant mode at remote locations) for smooth & secure data transferring from Remote locations (bottling plants / distilleries) to Central Server.

Excise Directorate will provide necessary server space as per project requirement at West Bengal State Data Centre, Salt Lake. WTL will co-ordinate the same. SI will install and maintain necessary Application and Database of Central Monitor system.

SI will submit detailed requirement for implementation of Central Management System at Remote site, requirement at Remote site and Central viewing centre (Excise Directorate), if any.

4. Project Implementation Plan: Bidder will submit detailed project implementation plan with all technical details as per minimum specification asked in the tender document.

Bidder also submit plant / distillery level hardware requirement, Technical details for Central Server, Central control / monitoring system at Excise HQ.

WEBEL TECHNOLOGY LIMITED

SECTION – D

SCOPE OF SERVICES – OPERATION & MAINTENANCE PHASE

1. After successful implementation of Central Monitoring System at Excise HQ and Plant / Distillery, SI will provide three years Operation & Maintenance (O&M) Support.
2. SI team will visit all the plant / distillery quarterly during O&M support tenure.
3. SI will provide necessary support at plant / distillery level as per SLA.
4. SI will provide 3 years warranty for entire Central Monitoring System
5. SI will develop the data analytics and Business Intelligence MIS on stored data as desired by the Central control system.

INSTRUCTION TO BIDDER

1. DEFINITIONS

In this document, the following terms shall have following respective meanings:

“Acceptance Test Document” means a document, which defines procedures for testing the functioning of installed system. The document will be finalized with the contractor with in 7 days of issuance of the Letter of Award.

51. NON-TRANSFERABILITY OF TENDER

This tender document is not transferable.

52. FORMATS AND SIGNING OF BID

The original and all copies of the proposals shall be neatly typed and shall be signed by an authorized signatory(ies) on behalf of the Bidder. The authorization shall be provided by written Power of Attorney accompanying the proposal. All pages of the proposal, except for un-amended printed literature, shall be initialed by the person or persons signing the proposal. The proposal shall contain no interlineations, erase or overwriting. In order to correct errors made by the Bidder, all corrections shall be done & initialed with date by the authorized signatory after striking out the original words/figures completely.

53. WITHDRAWAL OF BID

Bid cannot be withdrawn during the interval between their submission and expiry of Bid's validity period. Fresh Bid may be called from eligible bidders for any additional item(s) of work not mentioned herein, if so required.

54. INTERPRETATION OF DOCUMENTS

If any bidder should find discrepancies or omission in the specifications or other tender documents, or if he should be in doubt as to the true meaning of any part thereof, he shall make a written request to the tender inviting authority for correction/clarification or interpretation or can put in a separate sheet along with his technical bid document.

WEBEL TECHNOLOGY LIMITED

55. SPLITTING OF THE CONTRACT AND CURTAILMENT OF WORK

WTL reserve the right to split up and distribute the work among the successful bidders and to curtail any item of work in the schedule partly or fully.

56. PREPARATION OF TENDER

Tender shall be submitted in accordance with the following instructions:

- a) Tenders shall be submitted in the prescribed forms. Digital signatures shall be used. Where there is conflict between the words and the figures, the words shall govern.
- b) All notations must be in ink or type written. No erasing or overwriting will be permitted. Mistakes may be crossed out and corrections typed or written with ink adjacent thereto and must be initialed in ink by the person or persons signing the tender.
- c) Tenders shall not contain any recapitulation of the work to be done. Alternative proposals will not be considered unless called for. No written, oral, telegraphic or telephonic proposals for modifications will be acceptable.
- d) Tenders shall be uploaded as notified on or before the date and time set for the opening of tenders in the Notice Inviting Tenders.
- e) Tenders subject to any conditions or stipulations imposed by the bidder are liable to be rejected.
- f) Each and every page of the tender document must be signed with company seal by the bidder.
- g) Any bidder may withdraw his tender by written request at any time prior to the scheduled closing time for receipt of tenders and not thereafter.

57. PRE-DISPATCH INSTRUCTION

All materials / equipments supplied against the purchase order shall be subjected to Inspection, check and /or test by the authorized representative from WTL.

58. FINAL INSPECTION

Final inspection will be carried by the authorized representative from WTL.

59. SITE INSPECTION

Bidder can inspect (at their own cost) the sites if required, for which they have to take necessary permission from WTL in writing. WTL will take at least four days to organize such permission.

60. ERASURES OR ALTERNATIONS

The offers with overwriting and erasures may make the tender liable for rejection if each of such overwriting/erasures/manuscript ions is not only signed by the authorized signatory of the bidder. There should be no hand-written material, corrections or alterations in the offer. Technical details must be completely filled up. Correct technical information of the product being offered must be filled in. Filling up of the information using terms such as "OK", "accepted", "noted", "as given in brochure/manual" is not acceptable. The Customer may treat offers not adhering to these guidelines as unacceptable. The Customer may, at its discretion, waive any minor non-conformity or any minor irregularity in the offer. This shall be binding on all bidders and the Tender Committee reserves the right for such waivers.

61. COMPLIANCE WITH LAW

The contractor hereto agrees that it shall comply with all applicable union, state and local laws, ordinances, regulations and codes in performing its obligations hereunder, including the procurement of licenses, permits certificates and payment of taxes where required. The contractor shall establish and maintain all proper records (particularly, but without limitation, accounting records) required by any law, code/practice of corporate policy applicable to it from time to time including records and returns as applicable under labor legislation.

62. CLARIFICATION OF BIDS

WEBEL TECHNOLOGY LIMITED

During evaluation of the bids, the Customer/Tender Committee, at its discretion may ask the bidder for clarification of its bid. The request for the clarification and the response shall be in writing (fax/email) and no change in the substance of the bid shall seek offered or permitted.

63. DEEMED ACCEPTANCE

Deliverables will be deemed to be fully and finally accepted by Excise Directorate in the event Excise Directorate has not submitted such Deliverable Review Statement to Bidder/Implementation Partner before the expiration of the 30-days review period, or when Excise Directorate uses the Deliverable in its business, whichever occurs earlier ("Deemed Acceptance").

64. QUALITY CONTROL

- The contractor is obliged to work closely with WTL and/or EXCISE DIRECTORATE, act within its authority and abide by directive issued by them on implementation activities.
- The contractor will abide by the safety measures and free WTL and EXCISE DIRECTORATE from all demands or responsibilities arising from accident/loss of life, the cause of which is due to their negligence. The bidder will pay all indemnities arising from such incidents and will not hold WTL and EXCISE DIRECTORATE responsible.
- The contractor will treat as confidential all data and information about the system, obtained in the execution of its responsibilities in strict confidence and will not reveal such information to any party without the prior written approval of WTL/EXCISE DIRECTORATE.
- WTL reserves the right to inspect all phases of contractor's operation to ensure conformity to the specifications. WTL shall have engineers, inspectors or other duly authorized representatives made known to the contractor, present during the progress of the work and such representatives shall have free access to the work at all times. The presence or absence of representatives of WTL does not relieve the contractor of the responsibility for quality control in all phases.
- The Court of Kolkata only will have the jurisdiction to deal with and decide any legal matters or dispute whatsoever arising out of the contract.

65. SITE NOT READY

The bidder shall not be in any manner liable for any delay arising out of Excise Directorate inability to make the site ready within the stipulated period.

66. GENERAL TERMS

- a) All the pages of the bid document including documents submitted therein must be duly signed and stamped failing which the offer shall be liable to be rejected.
- b) All the documents to be submitted by the bidder along with their offer should be duly authenticated by the person signing the offer and if at any point of time during procurement process or subsequently it is detected that documents submitted are forged/tampered/manipulated in any way, the total responsibility lies with the bidder and WTL reserves the full right to take action as may be deemed fit including rejection of the offer and such case is to be kept recorded for any future dealing with them.
- c) No Technical/Commercial clarification will be entertained after opening of the tender.
- d) Overwriting and erasures may make the tender liable for rejection if each of such overwriting/erasures/manuscription is not only signed by the authorized signatory of the bidder. All overwriting should be separately written and signed by the authorized signatory of the bidder.
- e) Quantity mentioned in the tender document is indicative only and orders shall be placed subject to actual requirement. WTL reserve the right to increase or decrease the quantity specified in the tender.
- f) WTL reserve the right to reject or accept or withdraw the tender in full or part as the case may be without assigning the reasons thereof. No dispute of any kind can be raised the right of buyer in any court of law or elsewhere.
- g) WTL reserve the right to ask for clarification in the bid documents submitted by the bidder. Documents may be taken if decided by the committee.

WEBEL TECHNOLOGY LIMITED

- h) Supporting technical brochures / catalogues indicating each feature in respect of offered model and make must be submitted along with the offer, in absence of which the offer is liable to be ignored.
- i) No dispute by the bidders in regard to Technical/Commercial points will be entertained by WTL and decision taken by the Tender Committee will be final.
- j) Discrepancy in the amount quoted by the bidder due to calculation mistake, the unit rate shall be regarded as firm and the totaling or carry in the amount quoted by the bidder shall be corrected accordingly.
- k) The price offers shall remain firm within the currency of contract and no escalation of price will be allowed.
- l) The acceptance of the tender will rest with the accepting authority who is not bound to accept the lowest or any tender and reserves the right to reject in part or in full any or all tender(s) received and to split up the work among participants without assigning any reason thereof.
- m) The customer/WTL at its discretion may extend the deadline for the submission of Bids.
- n) The Court of Kolkata only will have the jurisdiction to deal with and decide any legal matters or dispute whatsoever arising out of the contract.

WEBEL TECHNOLOGY LIMITED

SECTION – I

TECHNO COMMERCIAL EVALUATION & AWARDING OF CONTRACT

1. EVALUATION PROCEDURE

- The Eligibility Criteria (Section - G) will be evaluated by Tender Committee and those qualify will be considered for further evaluation.
- The Tender Committee shall verify the solution document / Approach document. Bidder will presentation / demonstrate the solution. Bidder qualified after review of solution / approach documentation and presentation shall be considered for further evaluation.
- After successful qualifying in presentation / demonstration, qualified bidders will only be considered for Financial Bid evaluation.

2. FINAL EVALUATION

Financial Proposal of the bidders qualifying in the evaluation procedure will be evaluated. The bidder who has qualified in the evaluation procedure and returns with lowest quote (L1) in financial bid would normally be awarded the contract subject to Post Qualification.

3. AWARDING OF CONTRACT

An affirmative Post Qualification determination will be prerequisite for award of the contract to the lowest quoted bidder. A negative determination will result in rejection of bidder's bid, in which event the WTL will proceed to the next lowest evaluated bidder to make a similar determination of that bidder's capability to perform satisfactorily. The successful bidder (s) will have to give security deposit in the form of Performance Bank Guarantee.

4. POST QUALIFICATION

The determination will evaluate the Bidder's financial, technical, design, integration, customization, production, management and support capabilities and will be based on an examination of the documentary evidence of the Bidder's qualification, as well as other information WTL deems necessary and appropriate. This determination may include visits or interviews with the Bidder's client's reference in its bid, site inspection, and any other measures. At the time of post-qualification, Directorate of es may also carry out tests to determine that the performance or functionality of the Information System offered meets those stated in the detailed Technical Specification.

5. PRESENTATION

The presentation to given in front of the Tender Committee. The date, time and venue of the presentation for the qualified bidders will be intimated in due course.

WEBEL TECHNOLOGY LIMITED

SECTION – I

GUIDANCE FOR E-TENDERING
