CORRIGENDUM – I

TENDER NO. WTL/WBMDFC/ES/21-22/019 DATED 01.10.2021

Request	Decision
The software solution shall be developed using Spring Boot, J2EE technology with responsive front end design using AngularJs / React JS, Progressive Web App (PWA), Hibernate as ORM and PostgreSQL as RDBMS. Open Source reporting tools and other technologies should be used. Portable device app should be developed using Hybrid Mobile App technology supporting current Android/ Windows /iOS operating system and at least 5 (Five) earlier OS versions each. The System must support multiple Platforms and versions of OS/Devices/Screens, and Windows PC/Mac/Linux etc.	React JS will be included. Windows Mobile App will be removed.
Payment gateway, SMS gateway, Email gateway: It is presumed that WBMDFC will engage the respective service providers and provide the integration documents. The selected bidder needs to do the technical integration only. Please confirm	Yes. WBMDFC will arrange Payment Gateway, SMS Gateway and email gateway. Technical Integrations are to be done by the successful Bidder.
As per the RFP Security Audit Certification is included only once before Go-Live of the application. However it is expected to have multiple change requests during the O&M /Warranty period of the project. Hence it may be a requirement to conduct security audit certification each time when the change requests are released. Also it is requested to include security audit charges (per audit charges) as an optional price component in the RFP.	Before Go-Live Security Audit to be made accordingly. Thereafter, subsequent change requests should also have to be Security Audit & charges may be made accordingly.
The existing data of WBMDFC is to be migrated to the new system. The selected bidder will port existing data to the new system. Legacy data migration to be done maintaining LGD (Local Government Directory) compliance. WBMDFC will be responsible for verification, validation and certification of the migrated legacy data. Period of legacy data, volume of data and schema will be provided by WBMDFC. In case of need, need base data capture window will be opened.	Selected bidder has to take the responsibility about correctness of migration of exiting database to new software and they shall be responsible for that. WBMDFC is the owner of all data and hence by default responsible for data authenticity.
Existing NACH conversion data to be migrated. Selected bidder will be responsible for hundred percent migrations of the data provided by WBMDFC . The verification, validation and certification of the migrated NACH conversion data will be done by WBMDFC .	Selected bidder has to take responsibility about correctness and shall be responsible for that. WBMDFC is the owner of all data and hence by default responsible for data authenticity
Net increase of 60 days (from 90 days to 150 days).	A total period of 120 days will be considered. Failing which a penalty will be imposed for each day as per the

WEBEL TECHNOLOGY LIMITED
